

## 1/2 Day SUMMER CAMPS

\$170 per session | \*9:00 – 12:00 or 1:00 – 4:00 | Ages 6 - 18

*(Includes all materials and firing of finished work - all materials are safe and non-toxic)*

### Get Fired Up!

Experience the process of creation using the magical medium of clay.

Learn how to create with clay with the three basic methods of hand building: Coiling, pinching and slab work and then try your hand at throwing on the potter's wheel to make whatever can be imagined. We have a high instructor to student ratio so each "artist-in-residence" is sure to receive the guidance they need.

"Artist-in-residence" will have the opportunity to create a variety of pieces from bowls to sculptural art, while being guided step-by-step through all the processes experienced in a pottery studio.

From creation to firing and all that happens in between, there are no limits to what can be created. All work goes through two kiln firings: to make the pottery safe for food and drink.

### This years projects include

- A working tabletop water fountain
- Slip cast molds
- Tye dye kids 'N' Clay T-shirt
- Ceramic Frames painted with magic metallics

And whatever they can dream up  
in between!

## Now Registering for Summer Camps

*Registration information is on the back of this form.*
