WET CLAY classes for kids!

Classes meet for 1¼ hours. Each participant works on a project from their own imagination (*we have exclusive reference materials to serve as their "muse" if needed!*).

Each student works at their own pace. Instructors assist in learning pottery wheel throwing, hand building, sculpting, under glazing (painting), clear glazing and dip glazing. A high ratio of instructors to students insures personal attention as the children explore their creativity and work toward project completion.

**Safety and
Limitation
of Liability**

The staff of Kids 'N' Clay takes extraordinary precautions to ensure the safety and well-being of the students. Parents are expected to oversee the safety of their student(s) during the arrival and departure to and from the studio space. A high level of supervision is given the students while working.

However, ceramics does involve some mechanical devices (e.g. pottery wheels) and equipment (scoring pins, rolling pins, non-toxic glazes, etc.) that could present a hazard if used improperly. Like many other materials, extended exposure to excessive clay dust may present a health hazard. Please be assured that daily efforts are undertaken at Kids 'N' Clay to reduce the presence of clay dust, such as daily HEPA vacuuming and a wash down of affected hard surfaces and floors.

Involvement in these classes constitutes an acknowledgement by the sponsoring party(ies) that they are aware of some inherent risk to their children in these classes and agree to hold Kids 'N' Clay LLC harmless, without condition or limitation, in the event of any injury or harm to their student(s).
